ABOUT ME

I'm a full stack developer dedicated to crafting innovative and effective solutions to difficult problems while also focusing on providing an exceptional user experience. I also enjoy ice hockey, reading, and gaming.

EXPERIENCE

Software Engineer | Berkadia Commercial Mortgage

📅 January 2018 – Current

📍 Midvale, UT

- Deprecated and replaced legacy API gateway and authentication/authorization system, increasing overall security and improved developer experience by reducing setup and configuration for all applications
- Researched and integrated a web analytics solution to support the entire company's platform, allowing the company to gain valuable insight into who and how the company's applications are being used
- Helped architect and develop an internal property valuation tool, allowing Berkadia's investment advisors to intelligently match clients to investment property opportunities
- Helped architect and develop a customer-facing loan application, opening up a new line of business for Berkadia the company

EDUCATION

Full Stack JavaScript Bootcamp | Helio Training

📅 October 2017 – December 2017

📍 Salt Lake City, UT

- Focused on the fundamentals of building a full stack, modern, JavaScript application
- Used React, GraphQL, and Apollo to build a physical media tracker to catalogue Blu-Rays, DVDs, etc.

Bachelor of Science, Mass Communications | University of Utah

📅 October 2007 – June 2011

📍 Salt Lake City, UT

- Emphasis in organizational communication

OTHER EXPERIENCE

Client Relations Manager | Berkadia Commercial Mortgage

📅 March 2012 – January 2018

📍 Midvale, UT

- Managed a commercial real estate portfolio worth in excess of \$1 billion
